Program Overview P.2

Family Resource Centers P.3

Service Definitions P.20

Program Overview:

Launched in 1994, Families and Communities Together (FaCT) is a network of 15 Family Resource Centers (FRCs) located throughout Orange County's highest-risk communities providing essential family support services, education, and resources. FaCT is administered by the County of Orange Social Services Agency, in partnership with the FaCT Coalition of Charitable Ventures of Orange County, The Olin Group, and the Orange County Alliance for Children and Families.

The FaCT Coalition provides the FRC network with technical assistance in marketing, fund development, and community engagement, as well as training in best practices for child development and family strengthening. It also manages the network's shared data system and evaluation. These services maximize the programmatic benefits offered by the FRCs. Programs and services receive funding from federal, state, and county agencies including U.S. Department of Health and Human Services-Promoting Safe and Stable Families, Office of Child Abuse Prevention, California Emergency Management Agency, the County of Orange, as well as volunteer, in-kind support, and private donations.

Our Vision

Is that all our children grow up in stable, nurturing families and safe, supportive communities which promote healthy development and provide opportunities for children, youth and adults to achieve their full potential as caring, responsible, and productive members of society.

Our Mission

Is to identify and promote promising and best practices, train, fund, and advocate for family resource centers (FRCs) to be Orange County's community-based platform for prevention activities and family support services.

What is a FaCT Family Resource Center?

Each FRC is a family-friendly, community-based site that provides access to comprehensive prevention and treatment-oriented social, educational, and health services for all families, including birth, blended, kinship, adoptive, and foster families. FRCs serve as vehicles for engaging local residents and community organizations in the identification and resolution of community concerns related to raising healthy children. Every FRC is unique to its community; services are offered by multicultural and multilingual staff that reflect the surrounding neighborhoods and the families they serve.

Core FRC Services

Services are offered at all FaCT funded FRCs

- Counseling
- Parenting Education
- Family Support Services
- Domestic Violence Personal Empowerment Program

Counseling (Individual, Family, Group & Crisis)

Our FRCs provide counseling services to individuals, children, families, and groups. This service is offered with the goal of improving family functioning, increasing social support, teaching problem solving, reducing the effects of trauma, and to strengthen coping skills. Priority is given to non Medi-Cal, underinsured, and clients experiencing barriers to services. Clients may receive up to 20 sessions.

Parenting Education

FaCT FRC parenting courses have an effective curriculum that focuses on positive parenting techniques, effective discipline, and developmentally appropriate parenting skills. Open to all parents and caregivers.

Family Support Services

A family support specialist provides assessment, crisis intervention, ongoing support and referrals to resources and services for families with multiple-needs. Services are provided at the FRC or in-home depending on client needs and safety considerations. An individualized case plan is designed for each family with their input regarding barriers, strengths and needs. Every effort is made to ensure positive participation in services to stabilize the family and create safe and healthy home environments for children.

Domestic Violence Personal Empowerment Program

FaCT FRCs offer this ten week educational support program designed to empower victims to break the cycle of domestic violence through education on the dynamics and the effects of domestic violence, and to help victims protect children who live in domestic violence homes. Topics include safety planning, boundaries, anger management, legal aspects of domestic violence, working through denial, and maintaining healthy relationships

Information and Referral Services

Each FRC has a full-time staff member offering information and referrals for any family, individual or agency requesting assistance. This service is designed so that each specialist is the expert in their community and can link clients to resources and services to meet their varied and special needs. Examples include mental health services, basic needs resources, utility assistance, job training, legal assistance, substance abuse services, parenting, other educational programs, job training, recreational programs and more.

Comprehensive Case Management Team Services

This multidisciplinary team meets on a weekly basis to assess families with multiple needs. The goal is to link each family to services either at the FRC or in the community to meet those needs. Family members are invited to participate in the meetings and share thoughts regarding their strengths, needs and capacity to participate in services.

Out of School Time Youth Programs

OST Programs are designed to provide participants with a safe and nurturing space during after school and non-school hours. FaCT FRCs provide comprehensive programs that fit the needs of their communities including recreational, educational, developmental, leadership, and art and cultural enrichment activities.

Family Reunification Family Fun Activities

Family Reunification activities are supervised and organized events for children of parents and/or caregivers in the reunification process. Family Reunification activities focus on increasing the bond between parents and their children and providing an enriching and interactive environment for families.

Adoption and Promotion Services

This service aims to promote, in collaboration with Orange County, the need for foster and adoptive resources for children in need of a permanent home. Our FRCs promote this need at community events and workshops, and through the distribution of marketing materials in their respective communities.

Differential Response

This service is offered to families referred by Children and Family Services (CFS) during an investigation of alleged child abuse. A CFS Senior Social Worker teams with a Family Support Specialist from the FRC, completing an assessment of strengths and needs. The CFS case is closed and the family has the opportunity to participate in case management, family support and in-home support services through the FRC with the goal of stabilizing the family and preventing further incidents of abuse or neglect.

CalWORKs Family Stabilization

The Family Stabilization Program provides intensive case management and services to Welfare to Work clients who are experiencing an identified crisis or situation. A Specialized Case Manager teams with a Family Support Specialist from the FRC, completing an assessment of the strengths and needs. The Welfare to Work clock is paused and the family has the opportunity to participate in case management, family support and in-home support services through the FRC with the goal of stabilizing the family and preventing further incidents of crisis. The program utilizes services such as Behavioral Health Services, Domestic Abuse Services, Public Health Nurse, employment support, child support, transportation, and referrals to community organizations to stabilize and assist families in crisis.

Other services not defined vary across FRCs. Please contact the FRC for details.
